

Themeable markdown to PDF converter

markdown-themeable-pdf package converts your markdown files easily to PDFs.

Usage

You can generate the PDF in **two ways**:

- Right-click on the file in the file tree and select `Markdown to PDF` **or**
- Right-click in the editor area when a file is opened and select `Markdown to PDF`

Example

See `README.md.pdf` - the pdf version of this `README.md`

Todo

- Create the package configuration (*custom rendering settings, custom themes, custom stylesheets, ...*)
- Documentation
- Tests
