# Themeable markdown to PDF converter

 $\verb|markdown-themeable-pdf| package converts your markdown files easily to PDFs.$ 

### Usage

You can generate the PDF in two ways:

- Right-click on the file in the file tree and select Markdown to PDF or
- Right-click in the editor area when a file is opened and select Markdown to PDF

#### Example

See README.md.pdf - the pdf version of this README.md

## Todo

- Create the package configuration (custom rendering settings, custom themes, custom stylesheets, ...)
- Documentation
- Tests

## Credits

Special thanks to the <u>Atom team (https://atom.io/)</u> for this wonderful editor and to <u>alanshaw (https://github.com/alanshaw)</u> for his compfortable node module <u>alanshaw/markdown-pdf (https://github.com/alanshaw/markdown-pdf)</u>.

If you find this module useful, please send me your feedback. If not - I do!;)
